Portfolio

SUMMARY

Data Analytics professional with an M.Sc. in Data Science and strong expertise in Excel, SQL, Python, reporting, and business analytics. Experienced in data collection, data validation, KPI reporting, dashboard development, and transforming complex datasets into actionable business insights. Skilled in maintaining data accuracy, supporting operational reporting, and collaborating with teams to drive data-driven decision-making. Strong analytical mindset, attention to detail, and commitment to continuous learning.

TECHNICAL SKILLS

SQL: Complex queries, Joins, Aggregations, Subqueries, Window Functions, Data Extraction, MySQL Workbench
Python: Pandas, NumPy, Data Analysis, Scripting, Automation
Excel: Excel Reporting, Pivot Tables, VLOOKUP, Advanced Functions, Data Analysis, Data Cleaning
Data Analysis: Data Cleaning, Exploratory Data Analysis (EDA), Statistical Analysis, Hypothesis Testing, Data Management
Data Visualization: Dashboard Development, MS Power BI, Matplotlib, Seaborn, Business Reporting
Analytics Tools: Google Colab, Jupyter Notebook, MS Excel, MS PowerPoint
Database: MySQL, SQLite, PostgreSQL, Data Extraction and Transformation
Additional Skills: ETL Processes, Feature Engineering, Statistical Modeling, KPI Reporting, MIS Reporting, Product Analytics fundamentals

EXPERIENCE

Data Annotator – Intelgic Technologies Pvt. Ltd. , Kolkata

(March - June)2025

- Performed data quality validation and verification on large datasets to ensure accuracy and consistency.
- Conducted data preprocessing, cleansing, and documentation activities.
- Generated reports and maintained records to support operational processes.
- Collaborated with internal teams to improve data quality standards and workflow efficiency.
- Tools used: Python, OpenCV, Labellmg, Git, Pandas.

PROJECTS

AI-Driven Heart Disease Detection using Biological Signals [\[LINK\]](#)

Jan 2025--Jul 2025

- Developed Analyzed biological signal data (PPG) to extract meaningful patterns and features
- Built predictive ML models using statistical analysis of HRV, pulse rate, and motion artifacts
- Performed extensive data cleaning, feature engineering, and exploratory data analysis
- Applied TensorFlow for classification and risk assessment analytics
- Tech Stack:** Python (TensorFlow, Pandas, NumPy, Matplotlib, NeuroKit2), Excel, Statistical Modeling

LLM-Based Chatbot with LangChain & RAG [\[LINK\]](#)

Aug 2025 – Sep 2025

- Analyzed user query patterns to generate insights on chatbot performance and user behavior
- Extracted and processed data from knowledge base for real-time analytics
- Performed data cleaning and transformation for optimal model performance
- Tech Stack:** Python, SQL, Data Analysis, API Integration

Melophile_MusicPlayer_Using_Django [\[LINK\]](#)

Sep 2025 – Oct 2025

- Developed RESTful APIs for data extraction, processing, and management operations
- Implemented data pipeline for lyrics data parsing and structured storage
- Created analytics dashboard for tracking user interactions and music metadata
- Tech Stack:** Python, Django, SQL (SQLite/PostgreSQL), REST API, Data Management

Web Scraping for Stock Market Data Analysis [\[LINK\]](#)

Aug 2024 – Dec 2025

- Built automated web scrapers to extract real-time Indian stock market data for business analysis
- Performed comprehensive data analysis on stock ticker data to identify trends and patterns
- Applied statistical modeling and predictive analysis techniques using LSTM for trend forecasting
- Cleaned and transformed raw financial data into structured datasets for analysis
- Generated visualizations and insights for data-driven decision making
- Tech Stack:** Python (Pandas, NumPy, Matplotlib), SQL, Excel, Statistical Analysis

EDUCATION

M.Sc, Data Science

University of Kalyani, West Bengal

Aug 2023 – May 2025

8.75 CGPA

B.Sc, Computer Science

The University of Burdwan, West Bengal

Oct 2020 – Aug 2023

9.22 CGPA

CERTIFICATIONS

- Python Bootcamp Certification
- DERIVE INSIGHTS FROM BIGQUERY DATA
- SQL ADVANCED
- PROMPT DESIGN IN VERTEX AI
- DEVELOP GEN AI APPS WITH GEMINI AND STREAMLIT

KEY STRENGTHS

- SQL Intermediate:** Proven experience with complex queries, data extraction, and database management using MySQL
- Python Basic:** Hands-on experience with Python for data analysis using Pandas, NumPy, and data visualization libraries
- Excel Basic:** Proficient in Excel functions, Pivot Tables, VLOOKUP for business analysis and reporting
- Long-Term Commitment:** Seeking full 6-month internship with dedication to learning and growth
- Business Insights:** Experience in analyzing data to generate meaningful business insights and actionable recommendations
- Quick Learner:** Eager to learn Tableau, Google Analytics, DataBricks, and insurance domain knowledge
- Available Immediately:** Can start ASAP and relocate to Mumbai for work-from-office role
- Team Collaboration:** Proven ability to work closely with managers and cross-functional teams
