

PRITAM MAJUMDER

Kolkata, West Bengal

📞 8373099600 ✉️ prittammajumder792@gmail.com  LinkedIn  GitHub

SUMMARY

Detail-oriented Data & CRM enthusiast with a strong foundation in data management, Excel, SQL, and business process analysis. Experienced in data cleaning, reporting, and dashboard creation, with a growing interest in Salesforce administration, workflow automation, and system configuration. Skilled in maintaining data integrity, supporting user operations, and generating actionable insights. Quick learner with strong problem-solving skills and immediate availability.

TECHNICAL SKILLS

Salesforce (Beginner): User Management, Roles & Profiles (conceptual), Reports & Dashboards
CRM Concepts: Data Integrity, Workflow Automation, Business Process Mapping
Automation: Basic understanding of Workflow Rules & Process Automation
Tools: Excel, SQL, Data Cleaning, Reporting
Excel: Basic to Intermediate - Pivot Tables, VLOOKUP, Advanced Functions, Data Analysis, Data Cleaning
Data Analysis: Data Cleaning, Exploratory Data Analysis (EDA), Statistical Analysis, Predictive Analysis
Data Visualization: MS Power BI, Business Intelligence Reporting
Analytics Tools: Google Colab, Jupyter Notebook, MS Excel, MS PowerPoint
Database: MySQL, SQLite, PostgreSQL, Data Extraction and Transformation
Additional Skills: ETL Processes, Feature Engineering, Statistical Modeling, Business Analytics, Product Analytics fundamentals

EXPERIENCE

Data Annotator – Intelgic Technologies Pvt. Ltd. , Kolkata (March - June)2025

- Maintained structure datasets ensuring data accuracy and consistency
- Perform data validation and quality checks
- Collaborated with terms to improve data workflows and efficiency
- Worked with tools and processes to manage large-scale data operations
- Tools used: Python, OpenCV, LabelImg, Git, Pandas.

PROJECTS

AI-Driven Heart Disease Detection using Biological Signals [\[LINK\]](#) Jan 2025--Jul 2025

- DevelopAnalyzed biological signal data (PPG) to extract meaningful patterns and features
- Built predictive ML models using statistical analysis of HRV, pulse rate, and motion artifacts
- Performed extensive data cleaning, feature engineering, and exploratory data analysis
- Applied TensorFlow for classification and risk assessment analytics
- **Tech Stack:** Python (TensorFlow, Pandas, NumPy, Matplotlib, NeuroKit2), Excel, Statistical Modeling

LLM-Based Chatbot with LangChain & RAG [\[LINK\]](#) Aug 2025 – Sep 2025

- Analyzed user query patterns to generate insights on chatbot performance and user behavior
- Extracted and processed data from knowledge base for real-time analytics
- Performed data cleaning and transformation for optimal model performance
- **Tech Stack:** Python, SQL, Data Analysis, API Integration

Melophile_MusicPlayer_Using_Django [\[LINK\]](#) Sep 2025 – Oct 2025

- Developed RESTful APIs for data extraction, processing, and management operations
- Implemented data pipeline for lyrics data parsing and structured storage
- Created analytics dashboard for tracking user interactions and music metadata
- **Tech Stack:** Python, Django, SQL (SQLite/PostgreSQL), REST API, Data Management

Web Scraping for Stock Market Data Analysis [\[LINK\]](#) Aug 2024 – Dec 2025

- Built automated web scrapers to extract real-time Indian stock market data for business analysis
- Performed comprehensive data analysis on stock ticker data to identify trends and patterns
- Applied statistical modeling and predictive analysis techniques using LSTM for trend forecasting
- Cleaned and transformed raw financial data into structured datasets for analysis
- Generated visualizations and insights for data-driven decision making
- **Tech Stack:** Python (Pandas, NumPy, Matplotlib), SQL, Excel, Statistical Analysis

EDUCATION

M.Sc, Data Science Aug 2023 – May 2025
University of Kalyani, West Bengal 8.75 CGPA

B.Sc, Computer Science Oct 2020 – Aug 2023
The University of Burdwan, West Bengal 9.22 CGPA

CERTIFICATIONS

• Python Bootcamp Certification	HackerRank 2025
• DERIVE INSIGHTS FROM BIGQUERY DATA	GOOGLE 2024
• SQL ADVANCED	HACKERRANK 2025
• PROMPT DESIGN IN VERTEX AI	GOOGLE 2023
• DEVELOP GEN AI APPS WITH GEMINI AND STREAMLIT	GOOGLE 2023

KEY STRENGTHS

- **Data Integrity & Quality Management:** Strong focus on maintaining accurate, consistent, and reliable datasets through validation, cleaning, and structured processes
- **Analytical Thinking:** Ability to interpret data, identify patterns, and support decision-making with actionable insights
- **Process-Oriented Mindset:** Understanding of structured workflows, business processes, and data lifecycle management
- **Reporting & Dashboarding:** Experience in creating reports and dashboards using Excel and visualization tools to support business needs
- **SQL & Data Handling:** Proficient in querying, extracting, and managing structured data from databases
- **Problem-Solving Skills:** Strong ability to debug issues, analyze root causes, and provide efficient Solutions
- **Team Collaboration:** Proven ability to work closely with managers and cross-functional teams
